PROFESSIONAL SUMMARY

Frontend Developer with 2 years of experience, including 6 months of internship experience, building responsive web and mobile applications using React.js, Next.js, TypeScript, and JavaScript. Experienced in real-time dashboards, reusable UI components, REST APIs, WebSockets, Figma-based development, and responsive design. Proficient in Redux Toolkit, Tailwind CSS, Material UI, Git, CI/CD, testing, debugging, REST API integration, WebSockets, and microservices-based application architecture.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI
- **State Management:** Redux Toolkit
- **UI/UX:** Figma, Responsive Web Design, Pixel-perfect UI
- **API & Real-time:** REST APIs, WebSockets, API Integration, JSON
- **Architecture:** Microservices, Client-Server Architecture
- **Backend:** Node.js, Express.js, MongoDB, Mongoose, PostgreSQL, SQL, JWT
- **Tools:** Git, GitHub, GitHub Actions, CI/CD, Vercel, Render, Postman
- **Mobile:** Flutter, Dart, APK Deployment

PROFESSIONAL EXPERIENCE

Frontend & Mobile App Developer **Aug 2024 – Jul 2026**

Sustainabyte Technologies Pvt. Ltd. | Chennai, India

- Transitioned from a 6-month internship to a full-time Frontend & Mobile App Developer role, contributing to production web and mobile applications.
- Optimized 5+ responsive monitoring dashboards using React.js, Next.js, and TypeScript, increasing real-time data visibility by 35%.
- Engineered real-time charts, tables, and data visualizations with WebSockets and REST APIs, reducing data refresh latency by 80% across 1,000+ data points.
- Designed 20+ reusable UI components from Figma specifications using Tailwind CSS and Material UI, reducing development effort by 30%.
- Converted 15+ Figma designs into production-ready Flutter monitoring interfaces and streamlined testing, debugging, and APK deployment, reducing UI development time by 40%.

PROJECTS

1. **Industrial IoT Monitoring & Control Platform**

   Technologies: Flutter, Dart, React.js, Next.js, TypeScript, WebSockets, REST APIs, Material UI, Figma,Tailwind CSS.

   - Built responsive real-time monitoring interfaces with React.js and Next.js across 5+ dashboards, enabling temperature tracking, live updates, and interactive control.
   - Implemented WebSocket integration for continuous live data streaming and instant UI updates, cutting refresh delays by **80%**.
   - Converted **15+ Figma wireframes** into Flutter interfaces, delivering thermostat gauges and multi-zone monitoring dashboards.
   - Integrated **10+ REST API endpoints** and shared UI elements to support data synchronization and consistent user experiences.

2. **Collaborative Todo Application**

   Technologies: Next.js, React.js, Node.js, Express.js, MongoDB Atlas, Mongoose, JWT Authentication, Tailwind CSS, Material UI, REST API, Git, GitHub, Vercel, Render.

   - Delivered a cross-device task management application with Next.js and React.js, using reusable UI components for consistent user experiences.
   - Secured user authentication with JWT, Bcrypt password hashing, and protected routes.
   - Connected the React/Next.js frontend **with 4 RESTful CRUD operations** through Node.js and Express.js APIs, enabling synchronized task data.
   - Configured MongoDB Atlas and Mongoose for task management and enabled collaboration features for shared tasks.
   - Automated build and deployment workflows with GitHub Actions, deploying the frontend to Vercel and backend to Render.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering, **2020 – 2024**

As-Salam College of Engineering & Technology Thirumangalakudi, Aduthurai

Languages: Tamil | English
